

WHAT IS GO FRENCH SCS ?

A language school on a human scale that wishes to encourage its students to express themselves in French and to overcome the barriers that sometimes block language learning. A team of qualified teachers, with French as mother tongue but understanding various other languages (English, Dutch, German, Italian). An original method based on active communication and the pleasure of expressing yourself in French whatever your level

LANGUAGE EXAMS (SEJOR, ETC.)*

HOW TO BECOME A GO FRENCH SCS STUDENT?

During a first meeting, we take note of your goals, expectations and desires. We give you a level test. This level test will establish whether the match between your objectives and your starting level is possible. We will also fix the size of your training as well as the duration of each course and their frequency.

We are drafting an educational program that will serve as a guide throughout the duration of the training. It is obvious that this program can be modified during the training. At the same time, we prepare the contract which will define the respective obligations and commitments as well as the invoice.

Once the contract is signed and the amount of the training paid into the Go French SCS account, you start the training..

What are the strengths of Go French SCS?

- Qualified, experienced teachers who are multilingual and passionate about learning French.
- No registration or administrative fees® The distribution of theory or exercise sheets is included in your contract
- The hours are flexible and we come to your home, your place of work, or another location.
- At the end of the training, we suggest evaluating the level you will have reached and we issue a course follow-up certificate showing your level and the elements studied. It is also possible to take a complete test and thus list the skills acquired and those in the process of being acquired.
- There are never more than 5 students per group to keep a high level of interactivity and a maximum of student speaking time.
